825 Arthur Lord.
855 Tony Leighton.
875 Dave Boothroyd. Geoff Causebrook.
915 Geoff Causebrook.
925 George Plummer.

SCALE SECTION FEB 93

Our show at Highcliffe is arranged for Saturday 13th March at the Methodist Church Hall. As last year it is being held in conjunction with the Highcliffe branch of the R.N.L.I. who will be having stalls and providing refreshments. We helped to raise £450 for the Lifeboat last year as well as having a good day out and showing off our models so lets have an even beter show this year. Please bring your models between 9-15 and 10am and after unloading please move your car to allow others space to unload. There is parking in the roads opposite and in Lymington Rd and Wortley Rd. (Limited after 10am) and in the P & D Car Park at the rear of Gateway. For those who don't wish to stay your boats will be safe as there are plenty of us who will be there all day.

I have also booked a stand again at the Rotary Club's Modelex 93 event at Thorndon school Eastleigh which is on Sunday April 25th. This is easy to get to with plenty of parking. It is quite a big event with all the local Clubs including in addition to boats, Trains, Cars, Military, planes, helicopters, flying events and car racing, trade stands etc. etc. Our stand has limited space so please let me know if you wish to attend.

Our visit to Poole on July 4th will be even better this year. It is the 5th anniversary of the Vintage Model Yacht Club who will be displaying and sailing their boats. There will be a prize for the best boat in each group including ours, a raffle, and refreshments available all day in the clubhouse. Once again a chance to enjoy a day out, to display and sail our boats in the lovely setting of Poole Park. For more information on any of these events please contact me either on 0425 619098 or at the Pond.

There has been little activity at the Pond since the last newsletter mostly due to the continuing foul weather which has at least brought the water level right up to the car park again. Despite that we have several new members to welcome and there is much building going on. David Ellis's Bonny & Kelly and my Survey Vessel 'Hecla' are launched, also James Turner's new even faster off shore power boat. On the stocks are:- Arthur Lord's 'Uganda', Tony Raymonds 'Hudson Sound', Ken Ben's 'Smit?', Peter Hook's 'Kelly', Tony Leighton's 'Liberty Ship', Peter Oram's 'XI Submarine' Charles Somerville's 'Poole registered fishing boat' and I'm sure there are more. Apologies to any I've missed. Charles Somerville has not one but two! articles in Radio Control Model Boat magazine last month, one about construction of his narrowboat 'Nancy' and one about 'Tools for the Job', and I am not repeating comments overheard round the pond! A busy Chap is Charles. In his spare time from all of this he is also building a large shed in his garden for - Model Railways!!!.

Our Pub Supper in November was very pleasant although poorly attended, and the Annual Club Lunch at Brockenhurst was excellent this year. The Scale section displayed 6 very fine models in the dining room which caused a great deal of interest with our friends from the Yachting side.

Well thats it, looking forward to seeing you all at the pond and definately at Highcliffe on March 13th.

David Boothroyd.

The sailing programme has now been extended to include Spring and Mid-Summer special events and also series racing. I hope you will agree that we can look forward to a very interesting and enjoyable season; by the way a very happy and healthy New Year to you all.

Spinnaker Lake has been included as a Friday morning venue. The problems encountered last Autumn with weed have been overcome. We have derived a method of keeping the weed clear when sailing using salmon nets. These have been kindly donated by Salmon poachers which were confiscated by our Christchurch harbour bailiff member. Thank you Martin and the poachers.

You will see from the programme that sailing will start again at Spinnaker Lake in the Spring time.

The current Winter sailing is proving very successful with good turnouts on week-days. The number of members sailing Marbleheads on Sunday afternoons is also increasing. It is so pleasant to have the water back at our pond, Winter sailing has a lot of advantages, no traffic problems and fewer pond visitors. Come and sail with us.

John Ashurst has spent a lot of time collating our 1992 racing results for mid-week sailing and we thank him for his efforts. The summaries are worth studying.

May I conclude by saying thank-you to all members who help with the running of the Club. We must have the best Club in the country; just turning up to race with us is helping you know. The membership is the Club.

You may find your handicap countdown number has increased even more!
