

SCALE SECTION FEB 96

Please find enclosed our programme for 96 and you will see I have included the usual events plus two evening steering competitions following the success of last years trial. If the weather is bad in June we will have another chance in August.

Not included but possibly of interest is the International Festival of the Sea being held at Bristol over the Bank Holiday weekend 24th-27th May. This is a major Maritime event and includes a 'maritime world in miniture featuring every aspect of the diverse hobby of maritime modelling both indoor and outdoor'. Boats can be entered subject to a fee of £5 and vetting by the Bristol 96 models group! I have details and forms if anyone is interested.

I also enclose the 40Mz list for your info so please let me know any corrections, additions or cancellations if you are no longer using them.

Our show at Highcliffe is arranged for Saturday 9th March at the Methodist Church Hall. As previous years it is being held in conjunction with the Highcliffe branch of the R.N.L.I. who will be having stalls and providing refreshments. We helped to raise £552 for the Lifeboat last year as well as having a good day out and showing off our models so lets have an even beter show this year. Please bring your models between 9-15 and 10am and after unloading please move your car to allow others space to unload. There is parking in the roads opposite and in Lymington Rd and Wortley Rd. (Limited after 10am) and in the P & D Car Park at the rear of Gateway. For those who don't wish to stay your boats will be safe as there are plenty of us who will be there all day.

There has been little activity at the Pond during the winter mostly due to the continuing foul weather so lets hope that there is much building going on and there will be lots of new boats around this year.

The following boats are for sale:-

Kiwi R36 Modern Class Yacht. Std sails, Hull in Glass Fibre, Servo Sailwinch. Ready to sail, needs transmitter - 27 Meg. £200 ono. Good Condition.

Submarine (Robbe) Seawolf. Ready to sail. Dynamic Diving. Needs JR 40 Meg Transmitter. £180 Good Condition.
